

URI is committed to our CRO and Sponsor partners. We will not execute any study contract unless we are confident that we can successfully complete the study, and that we can meet or exceed the enrollment goal.

Our sites are equipped with all necessary services and medical equipment to run successful trials. We have separate work areas that are very "monitor friendly" allowing for easy computer and phone access, and isolated from the patients and staff.

Our staff is very active in educating patients participating in clinical trials, and in carefully explaining the details of the trial during the informed consent process.

URI is committed to our patients. All of our investigators are available to the patients at all hours of the day. We are staffed 24/7 – 365 days a year.

Our therapeutic areas include:

1. CNS - Psychiatry (Primary)
2. CNS - Neurology
3. Endocrine
4. Internal Medicine (Urology, Gastroenterology, etc.)
5. Woman's Health
6. Vaccines
7. Cardiovascular

**UNITED
RESEARCH
INSTITUTE**

United Research Institute, or URI is a private, multi-specialty clinical research site in the Miami, Florida area. With 8 board-certified physicians on the URI team as well as a staff of experienced research coordinators, nurse practitioners, and support personnel, URI has become a "Clinical Trials Site of Excellence" in the research arena.

We conduct Inpatient and Outpatient studies and are dedicated to meeting or exceeding all safety standards and enrollment goals.

Our expert medical staff is constantly looking to improve patient outcomes and are committed to quality, excellence, integrity and respect.

We are located in Southern Winds Hospital, just outside the multicultural city of Miami, FL. Southern Winds Hospital has a nationally accredited behavioral health program, including being accredited by The Joint Commission.
